SKILLS

- **Languages:** JavaScript, Node.js, Java (Learning)
- **Web Technologies**: HTML, CSS, Angular
- **Soft Skills:** Problem-Solving, Adaptability, Teamwork, Time Management, Creativity

OBJECTIVE

To apply my skills in web development and programming to build innovative, user-friendly applications while gaining valuable experience and to continuously grow, learn, and contribute positively to every environment I become a part of.

PROJECTS

Restaurant Website:

- Built a responsive restaurant website using HTML, CSS, and JavaScript.
- Designed an interactive menu with dish descriptions and categories, providing a user-friendly interface for browsing.
- Implemented dynamic features such as menu item highlights and smooth navigation to enhance user experience.
- Developed a clean and responsive design for desktop and mobile.
- Focused on intuitive UI and clear presentation of menu items.
